## EXPERIENCE

### [Freshinup](#), (Madison, WI - Remote) — Back-end/Front end developer, *Senior Consultant*

March 2020 - PRESENT

Use atomic design in both API & UI package  
Bring measurable, valuable changes to businesses by composing reusable atoms & molecules  
Frameworks/Programming languages  
- Laravel / PHP  
- VueJS / javascript

### [Sidekick Interactive Inc.](#), (Montreal, Quebec, Canada - Remote) — Back end & Android developer, *Consultant*

January 2020 - March 2020

Design & Build API for android app with ASP.NET, Symphony  
Mobile integrator (UI/UX)  
Integrate business logic with android latest design architecture jetpack

### [Cosmopolitan Travel Service](#), Dakar, VDN — *Front end developer, Consultant*

July 2018 - December 2019

Working alongside with backend-developers that are making available API that the front-end team (and I) use to build nice UI/UX interfaces with very dynamic content for CTS stuff

### [Senegal Virtual University](#) — *Mentor* — Introduction to Web and HTML/CSS/JS

January 2018

Answers to most common questions from fresh men and help them better understand the context of web development. One of the main goals is also to make them love and be ready for modern development.

### [Sentel GSM \(TIGO\)](#), Almadies — *Front end/Back end Dev*

September 2017 - October 2017

Implementing a task runner with ASP.NET (first project with c-sharp). The objective was to create a human interface and allow the end user to call stocked procedure and job in SQL SERVER then return the response in a nice and convenient way.

## SKILLS

I am methodical and well organized in my professional tasks. This allows me to work under pressure no matter how close the deadline is, no matter how big/important the project is, I give myself the means to achieve my objectives while delivering quality work with good practices

## PROGRAMMING LANGUAGES

Laravel: 3 years experience

## **LASPAD, UGB, Saint Louis — Research assistant**

July 2017 - December 2018

Develop tools, website. IT councillor. Mostly making LASPAD employees life easier by not only building tools to automate and digitalize their data but also give a hand whenever they need (conference planning, badge making, flyers, even guests picking at the airport)

## **Summa Turizm, Diamniadio — IT Responsible**

September 2016

Handling all that was about technology. I was doing:

- network wiring from my office (the server room) to end devices (printers, IP cameras, Access points)
- Development of real time chat application using internal network without any Internet
- Consulting when needed for business move including technology like subscription to Internet using towers to relay FAI signal

## **— Freelance Développeur**

Since 2014

I have been making my knowledge and talents available for all people needing my services as an IT guy or a partner in any of their projects
